ELSEVIER

SUBJECT INDEX
Bone, Volume 26, 2000

Abstracts
Argentine Association of Osteology and Mineral Metabolism XVI Annual Meeting, 397
Acromegaly
Hypogonadism and, growth hormone effects, 255
Activin
Release of, bone resorption and, 235
Adaptation
Bone strength analysis and, 169
Adipocyte
Bone marrow stromal cell differentiation and, 21
Osteoblast proliferation and, 485
Aging
Adipocyte influence on osteoblast proliferation and, 485
Cortical bone loss and, assessment of, 361
Cortical bone microcracks and, lacunar density levels, 375
Femoral neck fracture strength and, 499
Albers-Schönberg disease
Manifestations of, 87
Alkaline phosphatase gene
Osteosarcoma cells aggressiveness after expression of, 215
Amenorrhoea
Athletic, osteopenia and, determinants of, 591
Aminoterminal propeptides
Bone loss in elderly men and, 513
Anti-osteoporotic agents
Fracture prevention and, 393
Antiresorptive therapy
Serum CrossLaps role in monitoring response, 505
Apoptosis
Glucocorticoid receptor dimerization and, 33
Apposition rate
Osteocyte differentiation from osteoblasts and, 71
Argentine Association of Osteology and Mineral Metabolism XVI Annual Meeting
Abstracts, 397
Avioli, Louis V.
Eulogy, 205

Basic multicellular units
Bone remodeling and, Perspective, 319
Biochemical markers
Bone turnover, during long-term bed rest, 281
Bone turnover, in Paget's disease, 571
Bone turnover, osteoporosis therapy monitoring usefulness, Editorial, 551
Hormone replacement therapy response predictions and, postmenopausal women, 561
Serum CrossLaps role in monitoring response to antiresorptive therapy, 505
Biomechanics
Dopamine transporter gene deletion and, mouse, 15
Bisphosphonate
Bone formation effects, 341
Bone
Matrix vesicle distribution and mineralization in, 333
Nuclear matrix protein expression in, parathyroid hormone regulation of, 227
Skin and, changes induced by ovariectomy, 349
Bone apatite
Hydroxyl-ion deficiency in, 599
Bone balance
Primary hyperparathyroidism and, after surgical treatment, 535
Bone cell differentiation
Biophysical regulation of, gap junctions and, 417
Bone disease
Inflammatory, murine model of, 183
Bone formation
Activin release and, 235
Bisphosphonate effects on, 341
Fibroblast growth factor-2 effects on osteogenesis and, 161
Growth hormone effects on acromegaly and hypogonadism and, 255
Inflammation after ovariectomy, 43
Luciferase levels and, 27
Osteocyte differentiation from osteoblasts during, 71
Bone growth
Physical activity effects on mass quality, 153
Bone healing
Corticosteroids and, parathyroid hormone-related protein effects on, 437
Fibroblast growth factor-2 effects on osteogenesis and, 161
Bone lesions
Pagetic, risedronate effects on, 263
Bone loss
Age-related, in men, assessment of, 123
Aminoterminal propeptides and N-telopeptides of type I collagen in elderly men and, 513
Cortical, age-induced osteopenia and, 361
IL-6 role in, 55
Postmenopausal, portable forearm x-ray assessment, 131
Bone markers
Hormone replacement therapy monitoring role, 553
Metabolic, postmenopausal women and, 381
Bone marrow
Osteoprogenitors, in vitamin D insufficiency, 491
Stromal cell differentiation, 21
Bone marrow transplantation
Bone mineral metabolism changes after, 275
Bone mass
Clodronate effects on, postmenopausal women, 269
Bone matrix
Protein effects on mineral formation and growth, 189
Bone metabolism
Estradiol modulation of IL-6 activity and, 79
Estrogen receptor effects, neonatal rats, 117
Growing children and, 103
Bone mineral density (BMD)
After bone marrow transplantation, 275
Aminoterminal propeptides and N-telopeptides of type I collagen in elderly men, 513
Collagen I and, wrist fracture assessment, 287
Estrogen receptor gene polymorphisms and, in postmenopausal women, 111
Fracture prediction and, 387
Hip fracture effects on, longitudinal study, 95
Osteopenia and, determinants in female runners, 591
Radius, role, forearm bone strength prediction, 529
Young's modulus predictors and, finite element analysis, 519
Bone morphogenetic protein
Expression during distraction osteogenesis, 611
Bone quality
In vivo microdamage and, 147
Bone remodeling
Alveolar, sensory nerve innervation during tooth movement, 663

© 2000 by Elsevier Science Inc.

8756-3282/00/$20.00

TGF-β effects on IL-6 and, 249
Theory of, Perspective, 1
Vasculature and, Perspective, 319
Bone resorption
Activin release and, 235
Cystatin C effects on, 451
Growth hormone effects on acromegaly and hypogonadism and, 255
Osteoclast-mediated, cathepsin K effects on bone collage proteolysis and, 241
Serum CrossLaps role in monitoring response to antiresorptive therapy, 505
Bone stiffness
Estimation of, bone strength analysis and, 169
Ultrasonometry and, Letter, 411
Bone strength
Analysis of, bone stiffness assessment and, 169
Forearm, radius bone mineral density and phalangeal speed of sound role in predicting, 529
Bone turnover
Biochemical markers during long-term bed rest, 281
Biochemical markers of, in Paget's disease, 571
Biochemical markers of, osteoporosis therapy monitoring usefulness, Editorial, 551
Histomorphometry and biochemical markers of, in tumor osteolysis model, 475
IL-6 modulation by osteoclast differentiation stimulation, 469
Bone volume
Luciferase levels and, 27

Calcium
Bone cell differentiation and gap junctions and, 417
Cancellous bone
Architecture of, structure model type and trabecular thickness of, 291
Loss in, ultrasound vs. dual x-ray absorptiometry for determination of, 297
Low-megahertz ultrasonic properties of, 635
Carboxyterminal telopeptide
Of type I collagen, cathepsin K and, immunochemical characterization, 367
Cathepsin K
Bone collage proteolysis and, 241
Carboxyterminal telopeptide of type I collagen and, immunochemical characterization of, 367
Cementum
Matrix vesicle distribution and mineralization in, 333
Children
Iliac bone histomorphometry data in, 103
Osteogenesis imperfecta, histomorphometry in, 581
Chromosome 18q
Familial Paget's disease of bone and, 577
Clodronate
Bone mass effects, postmenopausal women, 269
Collagen
Skin and, changes induced by ovariectomy, 349
Collagen I
Bone mineral density and, wrist fracture assessment, 287
Colony forming unit
Stromal lineage, in bone marrow, 21
Connexins
Bone turnover and, 417
Cortical bone
Age-induced osteopenia and, 361
Osteocyte lacunar density and, microcracks with age and, 375
Corticosteroids
Bone healing and, parathyroid hormone-related protein effects, 437
Corticosterone
Apoptosis in growth plate and bone cells after, 33
Cystatin C
Bone resorption effects, 451
Cysteine proteinases
Cystatin C effects on bone resorption, 451
Cytokines
Expression, during osteoclast formation, 653
Inflammatory bone disease and, murine model, 183

Dentin
Matrix vesicle distribution and mineralization in, 333
Dopamine transporter gene
Deletion of, 15
Dual-energy x-ray absorptiometry
Age-related bone loss in men and, 123
Cancellous bone loss evaluation, comparison with ultrasound, 297
Pagetic bone analysis, 525

Estradiol
Deficiency of, during menstrual cycle, 79
Estrogen
Bone remodeling theory and, Perspective, 1
Replacement, IL-6 role in bone loss and, 55
Estrogen receptor
Cellular distribution in neonatal rat bone, 117
Estrogen receptor gene
Polymorphisms of, BMD in postmenopausal women and, 111
Estrogen receptor-α protein
Idiopathic osteoporosis in men and, 423

Femoral neck
Fracture toughness of, microstructure, composition, and age effects, 499
Fibroblast
Bone marrow stromal cell differentiation and, 21
Fibroblast growth factor-2
Osteogenesis and, 161
Fluid flow
Bone cell differentiation and gap junctions and, 417
Forearm
Bone strength, radius bone mineral density and phalangeal speed of sound role in predicting, 529
Fracture healing
Neurotrophin expression during, 625
Fracture prevention
Anti-osteoporotic agents and, 393
Fracture risk
Bone mineral density measurements and, 387
Lamellar bone elastic modulus and hardness and, 603
Fracture strength
Femoral neck, microstructure, composition, and age effects, 499
Hormonal conditions and drugs effects on, assessment, 355

Gene expression
Orbital spaceflight effects on, 325
Genetic linkage
Familial Paget's disease of bone, inheritance patterns and, 577
Gingipain-R
Protease-activated receptor-2 expression by osteoblasts and, 7
Glucocorticoid receptor
Apoptosis and, after corticosterone treatment, 33
Growth
Iliac bone histomorphometry in children and, 103
Physical activity during, bone mass quality effects, 153
Growth hormone
Acromegaly and hypogonadism and, 255
Parathyroid hormone and, as intervention treatment in osteopenia, 643

Hip fracture
Bone mineral density 6 years after, 95
Remodeling osteons in femoral neck and, 305

Bone Vol. 26, No. 6
June 2000:676–679

Histomorphometry
Bone turnover, in tumor osteolysis model, 475
Dopamine transporter gene deletion and, mouse, 15
Iliac bone, data in growing children, 103
Static and dynamic, children with osteogenesis imperfecta, 581
Hormone replacement therapy
Biochemical markers as predictor of response to, postmenopausal women, 561
Bone markers role in monitoring, 553
Cytokine RNA levels and, postmenopausal women, 137
Hydroxyapatite
Hydroxyl-ion deficiency in, neutron-scattering study, 599
Hyperparathyroidism
Primary, bone structure, balance, and remodeling after surgical treatment, 535
Secondary, parathyroid hormone levels and, 175
Hypogonadism
Acromegaly and, growth hormone effects, 255

Iliac bone
Histomorphometry, growing children, 103
Immunocytochemistry
Nuclear localization of parathyroid hormone receptor and, 221
Inflammation
Bone disease and, murine model of, 183
Ovariectomy and, bone formation effects, 43
Interleukin-1β
Hormone replacement therapy and, postmenopausal women, 137
Interleukin-6
Bone loss and, 55
Colocalization with osteoblasts, cytokine localization in bone and, 461
Estradiol deficiency and, 79
Hormone replacement therapy and, postmenopausal women, 137
Osteoclast differentiation stimulation and, bone turnover effects, 469
TGF-β effects, in osteoblasts, 249

Lacunar density
Cortical bone microcracks and, aging, 375
Lamellar bone
Elastic modulus and hardness, heterogeneity of, 603
Letters to the Editor, 199, 411, 545
Limb lengthening
Bone morphogenetic protein expression during distraction osteogenesis and, 611

Matrix metalloproteinase
Alkaline phosphatase gene effects on, 215
Matrix metalloproteinase-9
Carboxyterminal telopeptide of type I collagen and, cathepsin K and, immunochemical characterization of, 367
Matrix vesicles
Distribution in bone, dentin, and cementum, 333
Mechanostat
Bone remodeling theory and, Perspective, 1
Mechanotransduction
Bone cell differentiation and gap junctions and, 417
Men
Age-related bone loss in, assessment of, 123
Idiopathic osteoporosis, estrogen receptor-α protein expression and, 423
Menopause
Bone loss assessment, portable forearm x-ray and, 131
Bone mineral metabolism changes after bone marrow transplantation, 275
Hormone replacement therapy effects on cytokine levels, 137
Microcracks
Cortical bone, lacunar density and, 375
Microdamage
Bone remodeling theory and, Perspective, 1
Mineralization
Matrix vesicles and, 333
Protein effects on, in bone matrix, 189
Muscle strength
Hormonal conditions and drugs effects on, assessment, 355

Neoepitope
Cathepsin K effects on bone collage proteolysis and, 241
Neurotrophins
Fracture healing, expression during, 625
N-telopeptide
Serum, bone loss in elderly men and, 513
Nuclear matrix
Parathyroid hormone regulation of, 227

***oc* mutant**
Genetic mapping of, osteosclerosis and, 207
Osteoblasts
Bone cell differentiation and gap junctions and, 417
Bone marrow stromal cell differentiation and, 21
IL-6 colocalization with, cytokine localization in bone and, 461
Nuclear localization of parathyroid hormone receptor and, 221
Orbital spaceflight effects on, 325
Parathyroid hormone-related peptide effects on function of, 429
Proliferation of, mature adipocyte influence on, 485
Protease-activated receptor-2 expression by, 7
Staphylococcus aureus internalization and, 63
TGF-β effects on IL-6 transcripts in, 249
Osteoclasts
Alveolar nerve transection effects on appearance of, during tooth movement, 663
Cystatin C effects on bone resorption, 451
Formation of, cytokine expression by stromal and hematopoietic cells during, 653
Identification criteria, Letter, 199
Paget's disease and, 101
Osteocytes
Formation of, osteon refilling and, 71
Staphylococcus aureus internalization and, 63
Osteodystrophy
Renal, parathyroid hormone level effects on, 175
Osteogenesis
Distraction, bone morphogenetic protein expression during, 611
Distraction, transforming growth factor-β1 effects on, in rabbit limb-lengthening model, 619
Orthopic fibroblast growth factor-2 effects on osteogenesis and, 161
Osteogenesis imperfecta
Bone histomorphometry in, children, 581
Osteolytic bone lesions
Risedronate effects on, 263
Osteomalacia
Parathyroid hormone level effects on, 175
Osteomyelitis
Inflammatory bone disease and, murine model, 183
Staphylococcus aureus internalization and, 63
Osteons
Lamellar properties variations in, Letter, 545
Remodeling, hip fracture and, 305
Osteopenia
After ovariectomy, bone formation effects, 43
Age-induced, cortical bone and, 361
Aminoterminal propeptides and N-telopeptides in elderly men and, 513
Bone density and, determinants in female runners, 591
IL-6 and ovariectomy, 55

Parathyroid hormone and growth hormone as intervention treatment, 643
Tail suspension-induced, osteoprotegerin effects on, 443
Osteopetrosis
Gene mapping of *oc* mutation in, 207
Type II autosomal dominant, manifestations of, 87
Osteoporosis
Biochemical markers of bone turnover and, Editorial, 551
Bisphosphonate effects on bone formation and, 341
Bone and muscle strength and, assessment of, 355
Bone markers role in hormone replacement therapy monitoring, 553
Cancellous bone changes in, low-megahertz ultrasound evaluation of, 635
Collagen I and bone mineral density, fracture assessment, 287
Hormone replacement therapy effects on cytokine levels and, 137
Idiopathic, men, estrogen receptor-α protein expression and, 423
Men and, assessment of, 123
Pre/postmenopausal women, portable forearm x-ray assessment, 131
Osteoprogenitors
Bone marrow, in vitamin D deficiency, 491
Osteoprotegerin
Tail suspension-induced osteopenia effects, 443
Osteosarcoma
Alkaline phosphatase gene effects on malignant phenotype in, 215
Osteosclerosis
Manifestations of, 87
Ovariectomy
Inflammation and, bone formation effects, 43
Skin and bone collagen fibril changes induced by, 349

Paget's disease of bone
Biochemical markers of bone turnover in, 571
Familial, inheritance patterns and chromosome 18q linkage in, 577
Osteoclastogenic oral bacteria and, 101
Risedronate effects on, 263
Ultrasound velocity and dual energy x-ray absorption analysis of, 525
Parathyroid hormone
Bone metabolism and, during menstrual cycle, 79
Growth hormone and, as intervention treatment in osteopenia, 643
Nuclear matrix proteins regulation by, 227
Osteomalacia and, 175
Parathyroid hormone receptor
Nuclear localization of, 221
Parathyroid hormone-related peptide
Osteoblast function effects, 429
Parathyroid hormone-related protein
Bone healing and corticosteroid therapy and, 437
Physical activity
During growth, bone mass quality effects, 153
Protease-activated receptor-2
Expression by osteoblasts, 7

Radiology
Type II autosomal dominant osteopetrosis and, 87
Risedronate
Paget disease of bone and, 263
Running
Bone mineral density and osteopenia determinants and, 591

Skeletal balance
Postmenopausal women and, 381
Skeletal unloading
Bone turnover, biochemical markers of, during long-term bed rest, 281
Skin
Changes induced by ovariectomy, 349
Spaceflight
Osteoblasts and gene expression effects, 325
Speed of sound
Phalangeal, role, forearm bone strength prediction, 529
Young's modulus reflection and, finite element analysis of, 519
Staphylococcus aureus
Internalization of, osteomyelitis and, 63

Tail suspension
Osteopenia induced by, osteoprotegerin effects on, 443
Thrombin
Protease-activated receptor-2 expression by osteoblasts and, 7
Tooth movement
Alveolar nerve transection effects on osteoclast appearance during, 663
Topoisomerase II
Expression in bone, parathyroid hormone regulation of, 227
Trabecular bone
Thickness of, cancellous bone architecture and, 291
In vivo microdamage in, 147
Transforming growth factor-β
Activin release effects on bone formation, 235
IL-6 effects, in osteoblasts, 249
Transforming growth factor-β1
Distraction osteogenesis effects, rabbit limb-lengthening model, 619
Trypsin
Protease-activated receptor-2 expression by osteoblasts and, 7
Tumor necrosis factor-α
Hormone replacement therapy and, postmenopausal women, 137
Tumor osteopathy
Bone turnover histomorphometry and biochemical markers in, 475
Tumorigenicity
Alkaline phosphatase gene effects on osteosarcoma cell aggressiveness, 215

Ultrasonometry
Bone, bone stiffness and, Letter, 411
Ultrasound
Cancellous bone loss evaluation, comparison with dual x-ray absorptiometry analysis, 297
Low-megahertz, cancellous bone properties, 635
Pagetic bone analysis, 525

Vasculature
Bone remodeling and, Perspective, 319
Vitamin D insufficiency
Bone metabolism and bone marrow osteoprogenitors in, 491

Women, postmenopausal
Bone loss assessment, portable forearm x-ray role, 131
Clodronate effects on bone mass, 269
Estrogen receptor gene polymorphisms effects on BMD in, 111
Hormone replacement therapy, biochemical markers for predicting response to, 561
Metabolic bone marker changes and skeletal balance in, 381

Young's modulus
Speed of sound reflection of, finite element analysis of, 519
